Eat, Drink and be Merry

Prevent the Common Hangover

Ok you party animal, we know how many parties you plan on attending this Holiday Season. Some gatherings will be fun, and you'll kick back a few (or more) cold ones with your buddies. Some times a houseful of unpleasant or unwanted guests and drama will cause you to drink for more than just the great taste. Either way, we have a few ideas to help you not regret those drinks in the morning.

The best cure is to prevent the hangover from happening. Here are a few tips.

- **Don't drink on an empty stomach.** It isn't New Years yet, so don't worry about your resolution to diet. Holiday parties will always have some kind of munchies to snack on. Dive right into that fruitcake or cheese ball, do whatever it takes to fill up you tum-tum with yum yums. The reason that food is so important is because it'll sop up the alcohol so that it doesn't all go directly into the bloodstream.
- **Hydrate your body.** Alternate alcohol with water. Alcohol alone will leave you dehydrated and an ounce of prevention is worth a pound of cure. Sure, you'll probably still wake up at 4 a.m. with a desperate compulsion to hang your head under the faucet, but every glass of juice or water you force yourself to swallow the night before is worth two in the morning.
- **Skip the Coffee.** Coffee will not help you sober up, it will just make you an awake drunk, and keep you from your much needed sleep. However, if you have coffee every single morning, have a small cup to avoid caffeine withdrawals.

Now you have all the tools you need to enjoy your beer with out fear of retribution in the morning.

BEER OF THE MONTH CLUB

this month's featured beers

Snowshoe Brewing Company

Snowshoe Brewing Co. was founded in early 1995, with a mission to brew great beer and create a diverse menu of good food that would appeal to every family member. Their brewpub/restaurant was opened in Arnold, California, in the former location of the Meadowmont Inn, overlooking a golf course.

Their brewers have created award-winning ales that have beer lovers throughout Central California asking for more. The bottling and much of the beer is brewed using a 15-barrel brewhouse, three 15-barrel fermenters and three 30-barrel fermenters.

The brew pub's restaurant is a very comfortable setting to enjoy a meal with one of their excellent brews. And may I add that the food is d-e-l-i-c-i-o-u-s! The menu showcases a wide variety of appetizers, salads and main course selections... everything from prime rib to nachos, that are certain to please every palate! For those who prefer take out, there is even a gourmet "take 'n bake" pizza parlor. So if you are ever in the area, we definitely recommend you stop by for some fine beer and grub.

Snoweizen

An American style wheat beer made with 60% wheat malt. It is orange-gold in color with a small white foamy head. This is a very smooth beer with a slight citrus aftertaste, and is served at their brewpubs with a slice of lemon. We would recommend first trying it without the lemon and then adding a squirt to see which you prefer.

Thompson Pale Ale

This is an excellent pale ale that can be enjoyed by a very wide range of beer drinkers. It doesn't have the dry, bitter aftertaste associated with classic pale ale styles, but it has enough complexity to keep the most seasoned beer drinkers interested. This beer honors John "Snowshoe" Thompson, a mail carrier during the Gold Rush era, who wore homemade cross country skis, called "snowshoes" at that time.

Grizzly Brown Ale

Brewed with five different malts gives this beer a rich roasted flavor and a smooth chocolate finish. This beer is the darkest available at the brewery, and is definitely the local's favorite. It is also one of the best Brown ales we have ever tasted.
